

A letter from us to you

Hello

We hope that you are well and happy.

Some of us are back to school now and we thought it would be nice for you to hear a little about what we have been doing.

Things are a little different at school, we have to keep 2 meters apart and we have to wash our hands more. All the toys, bikes and space hoppers have to be cleaned after each of us has used them. We all have our own trays of equipment to use that is just for us and have a table to ourselves so we are not too close. We all get to be together in one group called a bubble, we have called ourselves The **Rainbow Bubble**.

In assembly we have been looking at thankfulness, so we all had a think about what we have enjoyed and are thankful for.

It has been good seeing friends again and having lunch outside and playing.

We liked the lesson when we planted beans.

We have been doing racing and jumping with the P.E teacher.

Some of our lessons have been learning about pirates and Mr Williams came in and showed us how to tie a reef knot, a bowline and a triple knot.

We have frogs in our beautiful new pond, the nature area has changed a lot and it has been a lot more fun. When we bug hunt we put them all in a big tray so we don't crowd around them. We learnt to make bird feeders and hope to get more birds coming to school. Mrs Foster used her special camera to take photos of the wildlife and there was something that visited at night but we don't know what it is, have a look at the photo and see if you can tell.

We would like to hear what you have been doing and what makes you happy and thankful, you could write back to us if you like?

We miss all of you that aren't here.

Wishing you lots of love and happiness from the Rainbow Bubble at Charsfield School

.
